CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE THREE AND SIX MONTHS
ENDED JUNE 30, 2022

(Unaudited)

MANAGEMENT’S RESPONSIBILITY FOR INTERIM FINANCIAL STATEMENTS

The accompanying unaudited condensed interim financial statements have been prepared by management in accordance with the accounting policies disclosed in the notes to the Company’s audited financial statements as at December 31, 2021. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the financial position date. The interim financial statements have been prepared in accordance with International Accounting Standards 34 – Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) appropriate in the circumstances.

The Company maintains adequate systems of internal controls. Such systems are designed to provide reasonable assurance that transactions are properly authorized and recorded, the Company’s assets are appropriately accounted for and adequately safeguarded and that the financial information is relevant and reliable.

The Board of Directors of the Company is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements and the accompanying management’s discussion and analysis. The Board of Directors carries out this responsibility principally through its Audit Committee.

The Audit Committee is appointed by the Board of Directors and all of its members are non-management directors. The Audit Committee meets periodically with management and the external auditors to discuss internal controls, auditing matters and financial reporting issues, and to satisfy itself that each party is properly discharging its responsibilities. The Audit Committee also reviews the financial statements, management’s discussion and analysis, the external auditors’ reports, examines the fees and expenses for audit services, and considers the engagement or reappointment of the external auditors. The Audit Committee reports its findings to the Board of Directors for its consideration when approving the financial statements for issuance to the shareholders.

(Unaudited)

1. NATURE OF OPERATIONS

Mayfair Gold Corp. (“Mayfair Gold” or the “Company”) was incorporated on July 30, 2019, under the British Columbia Business Corporation Act. The address of the Company’s registered and records office is Suite 700 – 1199 West Hastings Street, Vancouver, BC, Canada, V6E 3T5. The Company’s principal place of business is 489 MacDougall Street, Matheson, ON, Canada, P0K 1N0. The principal business of the Company is to acquire, explore, evaluate and develop mineral properties.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally. The international response to the spread of COVID-19 has led to significant restrictions on travel; temporary business closures; quarantines; global stock market and financial market volatility; a general reduction in consumer activity; operating, supply chain and project development delays and disruptions; and declining trade and market sentiment; all of which have and could further affect commodity prices, interest rates, credit ratings and credit risk.

Current global financial and economic conditions can be unpredictable. Many industries are impacted by these market conditions and the COVID-19 virus. Some key impacts of the current financial market turmoil arising from the COVID-19 virus include contraction in credit markets resulting in a widening of credit risk, devaluations and high volatility in global equity and commodity markets, foreign exchange rates, novel fiscal policy and monetary policy and monetary markets and a lack of market liquidity. Additionally, global economic conditions arising from the COVID-19 virus may cause a long-term decrease in asset values. If such global volatility and market turmoil continue, the Company’s operations and financial condition could be adversely impacted. The overall severity and duration of COVID-19-related adverse impacts on the Company’s business will depend on future developments, which cannot currently be predicted, including directives of the federal and provincial governments and health authorities.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed interim financial statements of the Company were prepared in accordance with International Accounting Standards 34 – Interim Financial Reporting (“IAS 34”). The accounting policies used in the preparation of these unaudited condensed interim financial statements are consistent with those used in the annual financial statements for the year ended December 31, 2021 and should be read in conjunction with the Company’s annual financial statements as at and for the year ended December 31, 2021. They do not include all of the information required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”). However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company’s financial position and performance since the last annual financial statements. These interim financial statements were authorized for issue by the Company’s Board of Directors on August 11, 2022.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities as at the date of the condensed interim financial statements and reported amounts of revenues and expenses during the three and six months ended June 30, 2022 and 2021. Estimates and assumptions used in preparation of these condensed interim financial statements are consistent with those used by the Company in preparing the annual financial statements as at and for the year ended December 31, 2021. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events which are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

6. LEASES

The Company is party to contracts that contain a lease for the rental of storage facilities. With the exception of short-term leases, leases with low-value, and leases with variable payments proportional to the rate of use of the underlying asset, which are included in expenses in the statements of loss and comprehensive loss, each lease is reflected on the statement of financial position as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its property, plant and equipment (see Note 5).

The Company makes certain judgements and estimations in regards to the calculation of an appropriate discount rate for lease accounting. For the rental contracts of storage facilities without implicit discount rates, the Company determined the incremental rate of borrowing to be 2.7% per annum based upon quotes from lenders for loans of similar value and duration.

(ii) Share capital

The number of shares issued and fully paid as at June 30, 2022 is 84,951,007. No preferred shares are issued or outstanding. Transactions for the issue of share capital during the six months ended June 30, 2022 and the year ended December 31, 2021 are as follows:

- (a) On March 11, 2021, the Company closed its initial public offering of flow-through and non-flow-through common shares, at a fair value of \$2.62 and \$1.85 per share, respectively. The Company issued 3,731,000 flow-through common shares for total consideration of \$9,775,220 and 5,406,900 non-flow-through common shares for total consideration of \$10,002,765. An amount of \$2,872,870 was recognized as the premium paid for the flow-through shares in excess of the fair value of the common shares, and was initially recognized as a liability. Share issuance costs of \$1,531,672 were incurred in connection with the offering.
- (b) On March 24, 2021, the Company issued 1,622 common shares at a fair value of \$1.85 per share for total consideration of \$3,000. These shares were issued in connection with consulting services provided to the Company.
- (c) On December 13, 2021, the Company completed a flow-through private placement consisting of the issue of 4,000,000 common shares at a price of \$1.16 per share for total consideration of \$4,640,000. An amount of \$928,000 was recognized as the premium paid for the flow-through shares in excess of the fair value of the common shares, and was initially recognized as a liability. Share issuance costs of \$218,625 were incurred in connection with the offering.
- (d) On June 30, 2022, the Company completed a flow-through private placement consisting of the issue of 4,300,000 common shares at a price of \$1.63 per share for total consideration of \$7,009,000. An amount of \$1,849,000 was recognized as the premium paid for the flow-through shares in excess of the fair value of the common shares, and was initially recognized as a liability. Share issuance costs of \$401,436 were incurred in connection with the offering.

(iii) Stock options

The Company, through its Board of Directors and shareholders, adopted a long-term equity incentive plan (the "Plan") which, among other things, allows for the maximum number of shares that may be reserved for issuance under the Plan to be 10% of the Company's issued and outstanding shares at the time of the grant. The Board of Directors has the authority and discretion to grant stock options as identified in the Plan, which includes provisions limiting the issuance of options to qualified persons and employees of the Company to maximums identified in the Plan and the vesting terms.

The following table summarizes information about the stock options outstanding and exercisable at June 30, 2022 and December 31, 2021:

	June 30, 2022		December 31, 2021	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

11. FINANCIAL INSTRUMENTS*Fair value measurement*

The Company categorizes each of its fair value measurements in accordance with a fair value hierarchy. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means.

Level 3 inputs are unobservable (supported by little or no market activity).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The fair values of cash approximate the carrying value due to the relatively short-term maturity of this financial instrument and is classified as Level 1 measurement.

Financial instruments risks

The Company examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks include credit risk, liquidity risk and market risk.

Credit risk

The Company is exposed to credit risk by holding cash. This risk is minimized by holding the funds in Canadian Schedule 1 banks. The Company has minimal accounts receivable exposure as its refundable credits are due from the Canadian Government.

Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources. The Company's ability to fund its operations and capital expenditures and other obligations as they become due is dependent on market conditions.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates will affect the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing returns.

Foreign currency

The Company is exposed to market risk related to foreign exchange rates. The Company operates in Canada and has foreign currency exposure to transactions in U.S. dollars. The majority of the ongoing operational costs are in Canadian dollars and are funded through operating and financing cash flows.

As at June 30, 2022 and 2021, the Company had cash, accounts payable and accrued liabilities that are in U.S. dollars. The Canadian dollar equivalent is as follows:

	June 30, 2022	December 31, 2021
Cash	\$ 52,600	\$ 334,899
Accounts payable and accrued liabilities	(150)	(185)
Total	\$ 52,450	\$ 334,714

A 10% appreciation or depreciation of the Canadian dollar relative to the U.S. dollar at June 30, 2022, would have resulted in an increase or decrease to net loss for the period of approximately \$5,200 (December 31, 2021 - \$33,500).

14. CAPITAL MANAGEMENT

The capital of the Company consists of its shareholders' equity. The Company's objectives when managing capital are to safeguard the Company's ability to continue to pursue the exploration and evaluation of its mineral properties and to maintain optimal returns to shareholders and benefits for other stakeholders. The Company manages its capital structure and makes adjustments to it in order to have the funds available to support the acquisition and exploration and evaluation of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company's capital is detailed below:

	June 30, 2022	December 31, 2021
Share capital	\$ 42,123,129	\$ 37,364,565
Share-based payments reserve	2,904,071	1,636,911
Deficit	(23,342,735)	(13,667,814)
	\$ 21,684,465	\$ 25,333,662

In order to carry out the planned management of the Company and to pay for administrative costs, the Company will utilize its existing working capital and as required, raise additional funds through equity financings. Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during period ended June 30, 2022.

15. SEGMENTED REPORTING

The Company has determined that it has only one operating segment.
